RE: Application reassignment request

Dear Madam/Sir,

This letter is in response to your letter titled NOTICE OF INCOMPLAETE NONPROVISIONAL APPLICATION dated December 3<sup>rd</sup>, 2007 concerning my application number 11/613,016 filed December 19<sup>th</sup> 2006. I have made contact with your representative, Mrs. Janice Tippet (703-308-9210 extension 109). She has advised me of explaining the following:

I have petitioned the application via the PTO **EFS-Web** interface. It seems that a wrong key was hit causing the application to be classified as non-provisional. Never the less, in all the documents I supplied in process, including the cover letter and the PDF (US\_ADS\_Form\_SB\_14.pdf) I have indicated that my application type is **provisional**. For this reason, I did not include claims nor did I pay the fees normally due for a full patent application.

As a result, I would like to ask you to please re-assign the patent application as a Provisional application, as originally intended- preserving 12/19/2006 as its filing date.

Subsequently, I would like to request a copy of the reassigned application (the re-assigned provisional application) to be used as a priority document.

Please note that this document, and the provisional application number and its filing date, are needed urgently for a corresponding international patent application filed recently. I would very much appreciate if you would be able to provide the required information and certified copy of the priority document as soon as possible.

Many thanks,  
Sincerely yours,

-- Shay Bushinsky
